

Employment Opportunities

"Construction Solutions for the Future"

Project Management

Project Management at Titan Construction & Engineering Services is a position meant only for those wanting to make a "career" of their work. This position, tailored for the "engineering" professional, offers a mix of design, estimating engineering, and overall project management. We use "Timberline," the leader in the construction industry, as our estimating job, and cost accounting package. "Eaglepoint" and "Autocad" software supplement the engineer in the areas of design. Oversight of the construction plans, schedule, and interface with the owners offer full oversight of the construction process. We offer competitive wages and benefits to make your career with us a time of growth and learning.

Some of the benefits available based on position are:

- Paid Holidays
- Paid Sick Days
- Paid Personal Days
- Paid Vacation
- Paid Travel Time
- Employee Medical Insurance
- Disability Insurance
- 401K Plan
- Annual Bonus Plan
- Credit Union Available
- Uniform Allowances
- Bereavement Days
- Section 125 Cafeteria Plan
- Additional Benefits
